18.1 APPLICATION OF OVERLAY ZONING DISTRICTS

A. Creation, Modification, and Removal of Overlay Zoning Districts

1. Overlay zoning districts may be created or removed through concurrent zoning text and map amendments in accordance with the process in Section 4.2.
2. Overlay zoning district regulations may be modified through a zoning text amendment in accordance with the process in Section 4.2.
3. Overlay zoning district boundaries may be modified through a zoning map amendment in accordance with the process in Section 4.2.

B. Intent, Relation to Base Zoning Districts, and Rules Governing the Application of Multiple Overlay Districts

Overlay zoning districts are designed to require special controls in certain areas of the City that have special characteristics or special development issues. The intent of an overlay zoning district is to provide common controls over areas that require a specific type of zoning control but are typically zoned with more than one (1) base zoning district. Unless modified by the overlay zoning district regulations, the regulations of the base zoning district apply. Whenever a lot and/or development site, as defined below, is covered by more than one overlay zoning district, the regulations of each overlay zoning district shall apply, except that where the regulations of such overlay zoning districts contain an actual, implied or apparent conflict, the more restrictive regulation shall apply unless stated otherwise.

C. Application of Overlay Zoning Districts to Off-Site Accessory Uses

Except as otherwise provide for in this Ordinance, the regulations of an overlay zoning district apply to:

- (1) The entirety of any lot located within the area of applicability of an overlay zoning district;
- (2) The entirety of any lot that is occupied by an off-site accessory use, including but not limited to off-street parking, that is incidental and subordinate to a principal use that is located on a lot within the area of applicability of an overlay zoning district;
- (3) The entirety of any lot on which any portion of a principal or accessory building is constructed, where some portion of the use occupying such building is located on a lot that is indicated within the area of applicability of an overlay zoning district.

18.2 PURPOSE STATEMENTS

A. Purpose of the SC Suburban Corridor Use Restriction Overlay District

The purpose of the SC Suburban Corridor Use Restriction Overlay District is to provide for a superior environment along major transportation corridors through the application of an overlay district that places restrictions on certain uses. This district is intended for application along transportation corridors in a suburban setting. The overlay district regulations are intended to supplement the regulations of the base zoning districts and to provide for harmony and compatibility of development over the length of the corridor.

B. Purpose of the ENORC Eastern New Orleans Renaissance Corridor Use Restriction Overlay District

The purpose the ENORC Eastern New Orleans Renaissance Corridor Use Restriction Overlay District is to provide for a superior environment along major urban transportation corridors in Eastern New Orleans through the application of an overlay zoning district that places restrictions on certain uses. The overlay district regulations are intended to supplement the regulations of the base zoning districts and to provide for the harmony and compatibility of development over designated corridors by special regulations.

C. Purpose of the HUC Historic Urban Corridor Use Restriction Overlay District

The purpose of the HUC Historic Urban Corridor Use Restriction Overlay District is to provide for a superior environment and a compatibility and continuity of development along major historic urban neighborhood street corridors. The district is intended for application in older developed areas of the City to promote a harmonious relationship between commercial uses and the surrounding residential neighborhoods. The overlay district regulations are intended to supplement those of the base zoning district to provide for the harmony and compatibility of development over designated areas by special regulations.

D. Purpose of the St. Charles Avenue Use Restriction Overlay District

The purpose of the St. Charles Avenue Use Restriction Overlay District is to provide for a superior environment and compatibility of development. Certain traffic-generating uses are prohibited.

E. Purpose of the RDO-1 Residential Diversity Overlay District (Marigny/Bywater)

The purpose of the RDO-1 Residential Diversity Overlay District is to allow a limited number of commercial activities and higher density residential uses in existing buildings across multi-block areas of residentially zoned areas. The RDO-1 Overlay District is intended to sustain

the historic character of residential neighborhoods that contained a few small commercial uses serving the immediate neighborhood and a few small multi-unit residential buildings situated among low density residential uses. The RDO-1 Overlay District encourages the compatible reuse of existing non-residential and mixed-use structures in residential areas, in order to reduce commercial and residential nonconformities and to prevent the use of spot zones to authorize commercial or higher density residential uses.

F. Purpose of the RDO-2 Residential Diversity Overlay District (Tremé/Sixth and Seventh Wards)

The purpose of the RDO-2 Residential Diversity Overlay District is to allow a limited number of commercial activities and higher density residential uses in existing buildings across multi-block areas of residentially zoned areas. The RDO-2 Overlay District is intended to sustain the historic character of residential neighborhoods that contained a few small commercial uses serving the immediate neighborhood and a few small multi-unit residential buildings situated among low density residential uses. The RDO-2 Overlay District encourages the compatible reuse of existing non-residential and mixed-use structures in residential areas, in order to reduce commercial and residential nonconformities and to prevent the use of spot zones to authorize commercial or higher density residential uses. The RDO-2 Overlay District differs from the RDO-1 Overlay District by allowing for the establishment of standard restaurants without the sale or service of alcoholic beverages.

G. Purpose of the AC-1 Arts and Culture Diversity Overlay District (Frenchmen, St. Bernard, Broad)

The AC-1 Arts and Culture Diversity Overlay District is intended to accommodate a limited number of live entertainment uses, but with additional permissions to sustain established and promote new arts and cultural uses, including a limited number of small-scale live entertainment venues in neighborhood business or mixed-use areas. The AC-1 Diversity Overlay District seeks to maintain and reinforce small-scale uses and a balance of daytime and night-time uses that are compatible with the character of surrounding residential neighborhoods.

H. Purpose of the AC-2 Arts and Culture Diversity Overlay District (Freret, Newton, Teche)

The AC-2 Arts and Culture Diversity Overlay District is intended to accommodate a limited number of live entertainment uses, but with additional permissions to sustain established and promote new arts and cultural uses, including a limited number of small-scale live entertainment venues in neighborhood business or mixed-use areas. The AC-2 Diversity Overlay District seeks to maintain and reinforce small-scale uses and a balance of daytime and night-time uses that are compatible with the character of surrounding residential neighborhoods.

I. Purpose of the AC-3 Arts and Culture Diversity Overlay District (St. Claude)

The purpose of the AC-3 Arts and Culture Diversity Overlay District is to establish and sustain new arts and cultural uses on lots generally facing St. Claude Avenue between Press Street and Poland Avenue. The St. Claude Arts and Culture Diversity Overlay District seeks to preserve the area's small to medium-scale commercial uses, encourage a balance of daytime and nighttime uses, and foster development of arts-related uses.

J. Purpose of the AC-4 Arts and Culture Diversity Overlay District (Tremé)

The AC-4 Arts and Culture Diversity Overlay District is intended to provide opportunities for a limited number of live entertainment uses both along corridors and interspersed within neighborhoods where residences, businesses, and arts and cultural uses have historically

coexisted. The AC-4 Diversity Overlay District seeks to maintain and reinforce small-scale uses and a balance of daytime and night-time uses that are compatible with the character of surrounding residential neighborhoods.

K. Purpose of the RIV Riverfront Design Overlay District

The RIV Riverfront Design Overlay District is intended to preserve, create, and enhance public views of the Mississippi River and to promote the development of a riverfront promenade, including connections to nearby public rights-of-way, open space, and other public amenities. The RIV Overlay District crosses several zoning districts and is intended to unify the entire riverfront by promoting public access between neighborhoods. Site plan and design review is required for development and redevelopment.

L. Purpose of the CPC Character Preservation Corridor Design Overlay District

The purpose of the CPC Character Preservation Corridor Design Overlay District is to provide for design review of projects that have an established development pattern and urban character recognized as “iconic” of New Orleans’ unique historic development. Site plan and design review is required to ensure that these projects are compatible with the preservation of the overall urban fabric, design character, scale, and pedestrian-friendliness of these corridors and adjacent areas.

M. Purpose of the EC Enhancement Corridor Design Overlay District

The purpose of the EC Enhancement Corridor Design Overlay District is to provide for design review for projects located predominantly in the older parts of the City. In these corridors, traditional character is intermittent, there may be segments with vacant or underutilized properties, and more recent development has tended to be suburban and auto-oriented in character. Site plan and design review is required to ensure coordinated infill development and redevelopment.

N. Purpose of the CT Corridor Transformation Design Overlay District

The purpose of the CT Corridor Transformation Design Overlay District is to provide for design review for projects in corridors that are located in Eastern New Orleans, on the West Bank, and in Lakeview and Gentilly. The corridors in Eastern New Orleans also include I-10 and its service roads. Existing development along these corridors is typically suburban in character and auto-dependent, and vacant and underutilized properties may be common. Superblocks are common along the corridors in Eastern New Orleans and the West Bank. Site plan and design review is required to ensure coordinated infill development and redevelopment.

O. Purpose of the GC Greenway Corridor Design Overlay District

The purpose of the GC Greenway Corridor Design Overlay District is to provide for design review in order to promote pedestrian and bicycle usage and enhance the natural environment in corridors that surround designated public greenways. The GC Greenway Corridor Design Overlay District is intended for application on properties that are adjacent to or across a right-of-way from a greenway. The GC overlay district may also be applied to other properties in the vicinity of a greenway, particularly around intersections between greenways and major streets.

P. Purpose of the HU-B1A Use Restriction Overlay District

The purpose of the HU-B1A Use Restriction Overlay District is to provide for preservation of certain historic urban neighborhood business districts and adjacent historic urban residential

neighborhoods. The overlay district is intended to supplement the base zoning district to ensure harmony and compatibility of development and re-development, by providing additional special regulations.

Q. Purpose of the LAS LaSalle Street Overlay District

The purpose of the LAS LaSalle Street Overlay District is to create an environment with additional opportunities for live entertainment at commercially-zoned sites along commercial corridors, as well as at small sites with commercial zoning that are interspersed within neighborhoods where arts and cultural uses have historically existed.

R. Purpose of the Magazine Street Use Restriction Overlay District

The purpose of the Magazine Street Use Restriction Overlay District is to provide for compatibility and the preservation of certain historic urban neighborhood street corridors and adjacent historic urban residential neighborhoods. The overlay district is intended to supplement those of the base zoning district to provide for the harmony and compatibility of development and re-development over designated areas by special regulations.

S. Purpose of the Jackson Avenue Use Restriction Overlay District

The purpose of the Jackson Avenue Use Restriction Overlay District is to provide additional protections to a portion of Jackson Avenue in order to curb increased commercialization of the avenue without resident input.

T. Purpose of the Annunciation Street Overlay District

The purpose of the Annunciation Street Overlay District is to encourage a mixed-use, walkable environment and a productive use of available space. The Annunciation Street Overlay District protects the interest of the neighbors while also allowing for increased height and floors that will encourage development of the area.

U. Purpose of the CSH Canal Street Height Overlay District

The purpose of the CSH Canal Street Height Overlay District is to encourage complimentary development, such as hotels, that will support the hospitals within the Life Sciences Mixed Use District.

 - c. A structure that prior to recent alterations originally would have met the above criteria and is proposed to be restored to such original features pursuant to either:
 - i. Approval from the Historic District Landmarks Commission if within a Local Historic District or designated as a landmark building; or
 - ii. Site plan and design review in accordance with Section 4.5.

The proposed restoration shall be completed prior to a certificate of occupancy for any non-residential use authorized by the RDO-2 Overlay District.

 - d. A structure that is clearly non-residential or mixed-use in its construction and history of use, including warehouse-style structures, former community facilities such as firehouses, educational facilities, places of worship, gas stations, and other historic commercial and mixed-use structures.
2. Where a structure was originally constructed as a residential use and was subsequently converted to a non-residential use, a non-residential use may not be re-established use once that use has been discontinued, unless otherwise permitted by Article 25.
3. A non-residential use authorized by the RDO-2 Overlay District is limited to hours of operation between 6:00 a.m. and 10:00 p.m. Other hours of operation may be approved through the conditional use process.
4. Non-residential uses authorized by the RDO-2 Overlay District are limited to the ground floor. Each non-residential use authorized by the RDO-2 Overlay District is limited to two-thousand (2,000) square feet in floor area. However, a non-residential use authorized by the RDO-2 Overlay District is allowed two-thousand and one (2,001) to five-thousand (5,000) square feet in floor area with a conditional use approval. No variance is allowed for these size limitations.
5. A non-residential use authorized by the RDO-2 Overlay District is exempt from all parking requirements of this Ordinance. All residential uses shall comply with parking requirements.
6. A non-residential use authorized by the RDO-2 Overlay District is subject to the sign standards of the HU-B1A District.

7. Drive-Through Facilities, Live Entertainment – Secondary Use, and Retail Sales of Packaged Alcoholic Beverages are prohibited. A non-residential use authorized by the RDO-2 Overlay District may not serve alcoholic beverages for consumption on or off premises.
8. Any restaurant shall not store trash, prepare food, or locate service uses in a rear or interior side yard that abuts a residential use.
9. Accessory outdoor dining is prohibited except on a sidewalk, subject to a sidewalk café franchise agreement with the City.
10. A residential use is subject to the following limitations:
 - a. The structure shall have been originally constructed with a greater number of units than currently allowed in the base zoning district. Evidence of such history may be required by the Department of Safety and Permits.
 - b. A two-family residential use authorized by the RDO-2 Overlay District may expand, subject to the bulk and yard standards of the HU-RD1 District. A multi-family residential use authorized by the RDO-2 Overlay District may expand subject to the bulk and yard standards of the HU-RM1 District.
 - c. The conversion to residential use of the upper floors or a ground floor portion of a non-residential building meeting the standards of this section shall comply with the minimum unit size standards of eight-hundred fifty (850) square feet per dwelling unit.
 - d. Any residential structure constructed in compliance with the standards of the base district is prohibited from any alteration or conversion to a multi-family dwelling.
11. Non-residential uses authorized by the RDO-2 Overlay District are also subject to the use standards in Article 20.

18.9 AC-1 ARTS AND CULTURE DIVERSITY OVERLAY DISTRICT

A. Applicability

The AC-1 Overlay District is intended as an overlay district to base commercial districts that creates a commercial environment with additional permissions for live entertainment. An AC-1 Overlay District shall encompass an area zoned commercially with a minimum size of two (2) contiguous blocks. The AC-1 Overlay District applies to the following areas:

1. All lots fronting Frenchmen Street between Royal Street and Esplanade Avenue, the lots fronting Decatur Street between Frenchmen Street and Esplanade Avenue, and the lots fronting the downriver side of Esplanade Avenue between North Peters Street and Decatur Street.
2. All lots in non-residential districts with frontage on Saint Bernard Avenue between North Rampart Street/McShane Place and North Roman Street.
3. All lots in non-residential districts with frontage on Broad Street between Interstate 10/Pontchartrain Expressway and Columbus Street, as well as those lots in non-residential districts with frontage on Columbus Street between North Broad Street and North Dorgenois Street.

B. Uses

1. Permitted Uses

In addition to all uses authorized in the base district, the following uses are allowed as permitted uses subject to the use standards of Article 20 and Paragraphs C below.

- a. Art Gallery
- b. Cultural Facility
- c. Indoor Amusement Facility up to a maximum of six-thousand (6,000) square feet of gross floor area
- d. Live Entertainment – Secondary Use
- e. Live Performance Venue
- f. Restaurant, Standard, which may sell alcoholic beverages for consumption on premises in conjunction with meals

2. Conditional Uses

In addition to all uses authorized in the base district, the following uses are allowed as conditional uses subject to the use standards of Article 20 and Paragraphs C below.

7. Premises with Alcoholic Beverage Permits

- a. All establishments with alcoholic beverage permits must submit a litter abatement plan inclusive of the placement of an outdoor trash receptacle for the approval of the Department of Sanitation. The approved litter-abatement plan shall be submitted to the Department of Safety and Permits prior to the issuance of a Certificate of Use and Occupancy.
- b. All non-glass drink containers used by establishments with alcoholic beverage permits must feature the establishment's logo.

18.12 AC-4 ARTS AND CULTURE DIVERSITY OVERLAY DISTRICT

A. Applicability

The AC-4 Overlay District is intended to create an environment with additional opportunities for live entertainment at commercially-zoned sites along commercial corridors, as well as at small sites with commercial zoning that are interspersed within neighborhoods where arts and cultural uses have historically existed. The AC-4 Overlay District applies to the following area:

1. All lots in non-residential districts bounded by Orleans Avenue/Basin Street, North Villere Street, St. Philip Street, North Rampart Street, St. Bernard Avenue (excluding properties that have frontage on St. Bernard Avenue), and both sides of North Claiborne Avenue.

B. Uses

1. Conditional Uses

In addition to all uses authorized in the base district, the following uses are allowed as conditional uses subject to the use standards of Article 20 and Paragraph C below.

- a. Live Entertainment – Secondary Use

C. Use Standards

1. Live Entertainment – Secondary Use

- a. All establishments providing live entertainment shall hold the appropriate Live Entertainment Permit.
- b. All establishments providing live entertainment are subject to a closed doors and windows policy during any performance.
- c. All establishments providing live entertainment are subject to the applicable noise, litter, and other laws of the City, including the Comprehensive Zoning Ordinance, Building Code, City Code, and Life Safety Code.
- d. A bar may provide live entertainment, including a permanent area for dancing, but adult uses and karaoke are prohibited. All bars providing live entertainment shall hold a Class A General ABO Permit and the appropriate Live Entertainment Permit.
- e. Live entertainment performances are restricted to the hours between 10:00 a.m. and 12:00 Midnight on all days, provided that additional hours of operation may be considered and granted through the conditional use process.

2. Restaurant

- a. Musical accompaniment for patrons at a restaurant (standard or specialty), in conformance with the following use standards:
 1. During the performance of any musical accompaniment, all doors and windows in the restaurant shall remain closed. Any amplification used in support of a musical accompaniment shall be directed towards the patrons of the restaurant, and not toward any door, window or outdoor space.

2. No cover charge shall be charged for any performance of any musical accompaniment.
3. Full restaurant service shall continue during the performance of any musical accompaniment.
4. No more than ten percent (10%) of a restaurant's seating area may be dedicated to a staging area for any performance of musical accompaniment.

6. Performance of the musical accompaniment shall not be permitted beyond 10:00 p.m. on Sundays through Wednesdays, or beyond midnight on Thursdays through Saturdays.
7. Musical accompaniment shall only be performed in the interior of a restaurant; outdoor musical accompaniment shall be subject to the general Live Entertainment – Secondary Use regulations, as applicable.

Any musical accompaniment for patrons at a restaurant that is not in conformance with the above standards shall be subject to general Live Entertainment – Secondary Use regulations, as applicable.

- b. A Special Event Permit may temporarily relieve a restaurant from standards of this section. Special Event Permits are limited to no more than ten (10) times a year for a total of thirty (30) days per year. Performances permitted by a Special Event Permit shall be a minimum of fourteen (14) days apart.

18.13 RIV RIVERFRONT DESIGN OVERLAY DISTRICT

A. Applicability

The RIV Riverfront Design Overlay District applies to all lots, excluding those developed with single-family or two-family dwellings, in the following locations:

1. The area bounded by Jackson Avenue, Tchoupitoulas Street, the Pontchartrain Expressway, and the Mississippi River;
2. The area bounded by Esplanade Avenue, a line extending from the centerline of Esplanade Avenue between North Peters Street and the center of the Mississippi River, the Mississippi River, the Inner Harbor Navigation Canal, a line extending from the centerline of Chartres Street between Poland Avenue and the center of the Inner Harbor Navigation Canal, Chartres Street, St. Ferdinand Street, Decatur Street, Elysian Fields Avenue, Chartres Street, the rear property line of lots with any frontage on Elysian Fields Avenue, Decatur Street, Frenchmen Street, and Decatur Street.
3. The area bounded by Brooklyn Avenue, Powder Street, Pelican Avenue, a line extending from the centerline of Pelican Avenue to the Mississippi River, the Mississippi River, and the Orleans Parish/Jefferson Parish boundary line.

B. Development Plan and Design Review Required

Development plan and design review is required for any new structure, addition, or enlargement in accordance with the thresholds of applicability in Section 4.5.

C. General Design Standards

Any new structure, major renovation, or expansion within the RIV Overlay District is subject to the following general design standards:

1. Within any yards of the development and the public right-of-way adjacent to the development, special finishes shall be included as part of a cohesive streetscape design. These include coordinated paving, design treatments for the pedestrian level, street lighting, and street furniture. The streetscape design shall be coordinated with the building design.
2. Where possible, loading and service areas shall be internal to the development block and accessed through service corridors and not through pedestrian-oriented streets.

D. Protection of View Corridors

1. No development may be located to block the view of the riverfront from any public right-of-way that extends to the riverfront or terminates prior to reaching the riverfront, but is within or abuts the boundaries of the RIV Overlay District. View corridors along such rights-of-way shall be the same width as the public street and continue to the riverfront through the overlay district as a straight line extension of the street. The site plan submitted for site plan and design review shall indicate the location of any view corridor within the development site.
2. Building projections, including but not limited to balconies, galleries, and overhangs, into any view corridor are limited no greater than ten percent (10%) of the width of the corridor. Such projections may encompass up to a maximum of twenty percent (20%) of the building façade abutting the view corridor.
3. Landscaping, exterior lighting, or other outdoor public amenities may be located within the view corridor to enhance the environment.

4. When permitted in the base zoning district, parking lots are permitted within a view corridor, provided that such parking does not encroach into the twelve (12) foot minimum public access areas.

E. Standards for Riverside of Floodwall or Levee

1. Riverfront Promenade

- a. A public access promenade shall be established by a servitude of no less than twenty-five (25) feet in width, of which a minimum of twelve (12) feet shall be a permanently constructed promenade. Such promenades shall include, at a minimum, a marked path for walking and/or walking and bicycling. Those areas of the twenty-five (25) foot servitude that do not consist of a permanently constructed promenade shall be landscaped and maintained in a manner that is visible to the public. The Executive Director of the City Planning Commission may allow a promenade or servitude of lesser width if it is demonstrated that doing so is functionally justified. Promenade servitudes shall be recorded in the office of the Clerk of Court of the Orleans Parish Civil District Court within one (1) month of approval by the Executive Director of the City Planning Commission and a copy of the recordation receipt shall be provided to the Executive Director.
- b. Servitude improvements shall be built and maintained by the property owner. Public access on private property is subject to reasonable rules and regulations as may be promulgated by the owner of such property and agreed to in writing by the Executive Director of the City Planning Commission. The completion of the promenade servitude shall coincide with the completion of the adjacent development on the property.
- c. Public access corridors providing connections between public streets abutting a riverfront property and a riverfront promenade shall be established. All public access corridors shall be included in the pedestrian promenade servitudes for the property where they are located and shall be recorded with the deed of the property in the manner set forth above. The widths of such required corridors may vary but shall be a minimum of twelve (12) feet in width and should exceed that width when feasible. They shall be open to the public and free of gates or other impeding obstacles, and shall provide constructed and marked paths for walking or for walking and bicycling. The property owner or the City may erect signs on these corridors to promote access and to provide rules and regulations for public use. Adequate lighting of these corridors, consistent with that of the promenade, is also required.
- d. No motor vehicles are permitted to use or cross the promenade or access corridor, except for emergency or necessary repair purposes. Any proposed road crossing of the promenade, either public or private, requires City Planning Commission approval.
- e. No mechanical or service equipment or service access may be located adjacent to the promenade servitude without full permanent screening.

2. Building Orientation Requirements

- a. Blank walls along view corridors and promenades are prohibited. Primary or secondary building entrances are encouraged to be located on façades facing the promenade.

- b. The ground story façade of structures facing a promenade maintain a transparency of forty percent (40%). Windows shall be constructed of clear or lightly tinted glass. Tinting above twenty percent (20%) or reflective glass is prohibited.
- c. No overhead service doors or bays may face the promenade. Loading and service areas shall be internal to the development block and accessed through service corridors and not through pedestrian-oriented streets or promenades.

F. Standards for the Land Side of the Floodwall or Levee

- 1. Buildings shall be built along the lot lines along the major access corridors.
- 2. Pedestrian and main entrances shall be located on the major corridor. Curb cuts should be located on the side streets, if possible.
- 3. Except for single-family and two-family dwellings, buildings shall contain ground floor non-residential uses.
- 4. Building façades shall contain variation in façade materials, offsets, fenestration, etc. in order to eliminate blank walls along the corridors.
- 5. Developments shall contribute to traffic signaling or lane striping if deemed necessary by the Director of the Department of Public Works.
- 6. Buildings shall be designed with galleries, awnings, canopies, and other weather protection devices.
- 7. Historic buildings shall be retained and reused to the greatest extent possible.
- 8. To the greatest extent possible, site and building design under this Section should be crafted so as to complement the design of the adjacent structures.

G. Riverfront Gateway Design Standards and Height Limit Increases

Certain areas along the riverfront act as gateways to the riverfront and are key to improving and encouraging pedestrian access from the surrounding neighborhoods to the river through the use of special design features. Incorporating superior design elements in a development within one of these areas qualifies a development for consideration of an increase height and/or density, in accordance with the following provisions:

- 1. Gateways areas are defined as the areas bounded by:
 - a. Esplanade Avenue, a line extending from the centerline of Esplanade Avenue between North Peters Street and the center of the Mississippi River, the Mississippi River, the Inner Harbor Navigation Canal, a line extending from the centerline of Chartres Street between Poland Avenue and the center of the Inner Harbor Navigation Canal, Chartres Street, St. Ferdinand Street, Decatur Street, Elysian Fields Avenue, Chartres Street, the rear property line of lots with any frontage on Elysian Fields Avenue, Decatur Street, Frenchmen Street, and Decatur Street on the East Bank of the Mississippi River;
 - b. the area bounded by the levee along the Mississippi River, the Orleans Parish/Jefferson Parish boundary line, Brooklyn Avenue, Powder Street, and Pelican Avenue, and a line extending from the centerline of Pelican Avenue to the levee on the West Bank of the Mississippi River.

2. To be eligible for consideration of an increase in the height limit, a development shall meet the design standards above, in addition to the following additional standards:
 - a. Developments shall include landscaped public open space, public plazas, and/or sidewalk/open air cafés with direct visual access to the River, subject to the Public Plaza Standards and Guidelines contained within Section 17.5.F.2 except that the plaza may be located more than three (3) feet above the adjacent sidewalk area in order to provide better views.
 - b. Developments shall be designed utilizing energy efficient design or other innovative sustainable design characteristics, sufficient to achieve a recognized green building certification, such as LEED (Leadership in energy & Environmental Design), Home Energy Rating System, Enterprise Green Communities, National Green Building Standard, Energy Star for Buildings Program, Net-Zero Energy Building, or another similar certification approved by the Director of the Department of Safety and Permits, and which is subject to the Whole Building Sustainability Standards and Guidelines contained within Section 17.5.C.2.
 - c. At least ten percent (10%) of dwelling units shall be reserved as affordable for households with incomes equal to or below eighty percent (80%) of area median income (AMI), with at least half of such affordable dwelling units containing two (2) or more bedrooms. The development shall be subject to the Affordable Housing Standards and Guidelines contained within Sections 17.5.H.2.a and 17.5.H.2.b. The affordable dwelling units shall be located within the same structure as the market-rate dwelling units in the development, shall be comparable to market-rate dwelling units in the development in terms of exterior design and finishes, and shall not be concentrated in any one area of the development.
 - d. In lieu of item 2.a above, a development may be eligible for a density bonus if the developer makes a substantial contribution to a new floodwall bridge, rail crossing, or other capital improvement which significantly increases public access to the riverfront. Such an improvement shall only be considered if, at the time of the application, the improvement is included as a priority project in the City's Capital Improvements Plan, and/or included in the City's Capital Budget. For purposes of this provision, "substantial contribution" shall mean a financial contribution of at least 50% of the cost of the improvement, but not less than \$250,000, provided that at the time of the application, commitments exist from other sources ensuring that any remaining funds necessary to complete the cost of the improvement will be available within one (1) year of the date of the application. For purposes of clarity, any contribution made pursuant to this provision shall not be used to waive the standards provided in subsections 2.b or 2.c above.
3. For any property located within an area defined above as a gateway, development proposals which incorporate the design standards required in Section 2 above shall be entitled to the following: (i) an increase in the height limit up to two (2) stories, but no greater than twenty-five (25) feet beyond the height limit of the underlying zoning district, (ii) an increase of an additional 1.5 FAR Above the maximum FAR permitted in the underlying zoning district, and (iii) the elimination of any Minimum Lot Area per dwelling unit requirement applicable in an underlying zoning district.

18.14 CPC CHARACTER PRESERVATION CORRIDOR DESIGN OVERLAY DISTRICT

A. Development Plan and Design Review Required

Development plan and design review is required for any new structure, addition, or enlargement in accordance with the thresholds of applicability in Section 4.5 as well as any additional thresholds of applicability of the CPC Overlay District.

B. Additional Design Review Approval Standards

In addition to the development plan and design review standards of Section 4.5, the following additional approval standards shall be considered:

1. Design shall be compatible in scale, materials, street level uses, and spatial relationships with existing development in historic districts that retain unique character.
2. Design shall preserve the rhythm of the street, doorways, and windows, although minor variations to add interest are allowed.
3. Street façades shall be articulated with no blank walls along the street.
4. All sides and areas of structures visible to the public shall be treated with materials, finishes and architectural details appropriate to primary street-facing façades.

C. CPC Overlay District Sub-Districts and Areas of Applicability

The CPC Overlay District contains the following sub-districts and areas of applicability:

1. CPC-1 Magazine Street Sub-District

The CPC-1 Magazine Street Sub-District applies to all lots with frontage on Magazine Street between the Pontchartrain Expressway and Leake Avenue. In addition to the thresholds of applicability for development plan and design review in Section 4.5, developments on lots within the entirety of each block located at the following intersections are also subject to development plan and design review:

- a. Magazine Street and Jackson Avenue;
- b. Magazine Street and Washington Avenue;
- c. Magazine Street and Louisiana Avenue;
- d. Magazine Street and Napoleon Avenue;
- e. Magazine Street and Jefferson Avenue;
- f. Magazine Street and Nashville Avenue.

2. CPC-2 St. Charles Avenue Sub-District

The CPC-2 St. Charles Avenue Sub-District applies to all lots with frontage on St. Charles Avenue between the Pontchartrain Expressway and Leake Avenue. In addition to the thresholds of applicability for development plan and design review in Section 4.5, developments on lots within the entirety of each block located at the following intersections are also subject to development plan and design review:

- a. St. Charles Avenue and Martin Luther King Jr. Boulevard/Melpomene Avenue;
- b. St. Charles Avenue and Jackson Avenue;

- c. St. Charles Avenue and Washington Avenue;
- d. St. Charles Avenue and Louisiana Avenue;
- e. St. Charles Avenue and Napoleon Avenue;
- f. St. Charles Avenue and Jefferson Avenue;
- g. St. Charles Avenue and Nashville Avenue;
- h. St. Charles Avenue and Broadway Street;
